## FCC Statement:

**CAUTION:** Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## Troubleshooting

**Problem:** The Dream Machine™ is making noises when in use.

**Solution:** A steady noise from the motor is typical when the massager is being used. If the massager makes any sudden loud or grinding noises, discontinue use and contact truMedic® for service.

---

**Problem:** The Dream Machine™ will not turn on.

**Solution:** Ensure the A/C adapter is plugged into the correct outlet and that the adapter is securely plugged into the power cord on the massager.

---

**Problem:** The Dream Machine™ suddenly shut off.

**Solution:** If the massager has been used for more than 15 minutes the automatic shut off feature has been activated to reduce the chance of overheating or injury. Wait 30 minutes and then attempt to use the massager again.
