## truShiatsu™ Massage

---

The truMedic® truShiatsu™ PRO Foot Massager allows you to enjoy a professional truShiatsu™ foot massage where you want when you want it. The ergonomic and unique design perfectly complements your foot structure and provides a relaxing, enjoyable foot massage. In keeping with eastern massage principles, this unit has three intensity settings, ranging from mild to strong. Please be cautious in choosing the setting best suited to your tolerance for massage and start with the lower strength settings until accustomed to the sensation.

# FCC Statement

---

**CAUTION:** Modifications not approved by the party responsible for compliance could void user's authority to operate the equipment.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

# IMPORTANT SAFETY INSTRUCTIONS

---

## READ ALL INSTRUCTIONS BEFORE USING THIS HOUSEHOLD APPLIANCE

When using an electrical appliance, basic precautions should always be followed, including the following:

### TO REDUCE THE RISK OF ELECTRIC SHOCK:

- Always unplug this appliance from the electrical outlet immediately after using and before cleaning.
- Do not reach for an appliance that has fallen into water. Unplug immediately.
- Do not use while bathing or in a shower.
- Do not place or store appliance where it can fall or be pulled into a tub or sink. Do not place in or drop into water or other liquid.

## **TO REDUCE THE RISK OF BURNS, FIRE, ELECTRIC SHOCK, OR INJURY TO PERSONS:**

- An appliance should never be left unattended when plugged in. Unplug from outlet when not in use, and before putting on or taking off parts.
- Do not operate under blanket or pillow. Excessive heating can occur and cause fire, electric shock, or injury to persons.
- Close supervision is necessary when this appliance is used by, on, or near children, invalids, or disabled persons.
- Use this appliance only for its intended use as described in this manual. Do not use attachments not recommended by the manufacturer.
- Never operate this appliance if it has a damaged cord or plug, if it is not working properly, if it has been dropped or damaged, or dropped into water. Return the appliance to a service center for examination and repair.
- Do not carry this appliance by supply cord or use cord as a handle.
- Keep the cord away from heated surfaces.
- Never operate the appliance with the air openings blocked. Keep the air openings free of lint, hair, and the like. Never operate on a soft surface such as a bed or couch where the air openings may be blocked.
- Never drop or insert any object into any opening.
- Do not use outdoors.
- Do not operate where aerosol (spray) products are being used or where oxygen is being administered.
- To disconnect, turn all controls to the off position, then remove plug from outlet.
- Do not use massager in close proximity to loose clothing or jewelry.
- Keep long hair away from massager while in use.

**NOTE 1:** *The truMedic® truShiatsu™ PRO Foot Massager is not intended for use by individuals with certain medical conditions, including high blood pressure, diabetes, heart disease, cerebral arteriosclerosis, cerebral thrombosis, malignant tumors or osteoporosis. Please consult your medical professional if you have any of the above or similar conditions prior to using this device.*

**NOTE 2:** *This massager delivers a range of massage pressures from mild to very strong. Always begin using this massager on the low intensity setting in mode 1. If it begins to feel too intense, please immediately press the power button to release the pressure.*

**NOTE 3:** *This massager is not a medical device and is not intended to treat any specific illness or ailment. For proper medical care, contact your healthcare provider or a medical professional.*

## PLEASE READ AND OBSERVE ALL INSTRUCTIONS BEFORE USE

- This massager should not be used by individuals with pacemakers or other implanted medical devices.
- Do not use the truMedic® InstaShiatsu+® Massager if you have been previously treated for an injury or sickness, currently receiving medical care or have joint dysfunction including rheumatism.
- Do not stand up in this massager.
- Do not operate this massager in wet environments, such as near swimming pools or in bathrooms. Do not allow the unit to become wet, and do not operate the unit with wet hands or feet.
- Do not operate this massager in dusty or dirty environments or outdoors.
- Keep this massager away from heat sources such as electric stoves, radiators, or space heaters.

- Do not place this massager in direct sunlight or store it in a hot environment.
- This massager has an automatic thermal protection feature. If the unit becomes overheated with use, it will shut off to prevent internal damage. Unplug the unit and wait for it to cool down before attempting to use.
- The heat function can cause the unit to become hot. Exercise caution when using the heat function, and allow the unit to completely cool between uses.
- This massager is intended for use for 15 minutes per session. Do not use this massager for more than 30 minutes consecutively.
- Do not use this massager while sleeping or under the influence of alcohol.
- Keep sharp objects away from this massager. If the cloth foot covers become damaged, stop using the unit and contact truMedic® for service.
- Do not attempt to repair this massager or use any spare parts that were not provided by truMedic®. If your unit is broken, contact truMedic® for service.
- Do not insert any foreign objects into this massager.
- Do not carry the unit by the power cord or foot inserts.
- Do not use this massager if the air openings are blocked. Keep the air openings free of lint, hair and other foreign objects.
- This massager has a circuit protection device to prevent overheating, as well as current-overload protection.

## Included in Box

- truMedic® truShiatsu™ PRO Foot Massager
- A/C Adapter

# Operation

---

- Plug the unit into a wall outlet for power. The unit will be in “Ready Mode” and the LED Screen will read “OF”.
- Press the power button to start the unit. The truMedic® truShiatsu™ PRO Foot Massager is intended for use for 15 minutes per session. Do not use the unit for more than 30 consecutive minutes in a single session.

- The truMedic® truShiatsu™ PRO Foot Massager automatically ends the session after 15 minutes.

- When the massager is turned on it will automatically activate the heating function, which is indicated on the LED screen as “H1”.
- The rollers within the foot massager will also emit a yellow light to indicate that the heating function is active. Press the HEAT button once to deactivate the heating function, which is indicated as “HF” on the LED screen.

## LED SCREEN

## FUNCTION

- Default setting when massager is turned on
- Heat activated
- Yellow light emitted from rollers

- Heat deactivated
- Press button once to deactivate

- Use the intensity button to adjust the intensity of the air compression function.
- When the truMedic® truShiatsu™ PRO Foot Massager is powered on, it will automatically default to low intensity, which is indicated on the LED screen as “L1”.
- Press the INTENSITY button once to enter medium intensity and twice to enter high intensity, indicated on the LED screen as “L2” and “L3”, respectively.

LED SCREEN	FUNCTION
	<ul style="list-style-type: none"> <li>• Default setting when massager is turned on</li> <li>• Low intensity</li> </ul>
	<ul style="list-style-type: none"> <li>• Medium intensity</li> <li>• Press INTENSITY button once</li> </ul>
	<ul style="list-style-type: none"> <li>• High intensity</li> <li>• Press INTENSITY button twice</li> </ul>

- Use the mode button to select a massage mode. This massager features four intelligent massage modes:

1. When the massager is turned on it will automatically default to Mode 1, which is indicated on the LED screen as "P1". Mode 1 is a rolling foot massage with mild air pressure.
2. Press the Message Mode button once to enter Mode 2, which is indicated on the LED screen as "P2". Mode 2 is a rolling foot massage with more frequent air pressure, which makes for a deeper massage than in Mode 1.
3. Press the Message Mode button twice to enter Mode 3, indicated on the LED screen as "P3". Mode 3 uses rollers only with no air pressure.
4. Press the Message Mode button three times to enter Mode 4, indicated on the LED screen as "P4". Mode 4 uses air pressure only with no roller activity.

MODES	BUTTON	LED SCREEN	MESSAGE TYPE
MODE 1	Default setting		<ul style="list-style-type: none"> <li>• Rolling foot massage</li> <li>• Mild air pressure</li> </ul>
MODE 2	Press mode button <b>once</b>		<ul style="list-style-type: none"> <li>• Rolling foot massage</li> <li>• Frequent air pressure</li> <li>• Deeper massage</li> </ul>
MODE 3	Press mode button <b>twice</b>		<ul style="list-style-type: none"> <li>• Rolling foot massage</li> <li>• No air pressure</li> </ul>
MODE 4	Press mode button <b>three times</b>		<ul style="list-style-type: none"> <li>• No roller activity</li> <li>• Air pressure only</li> </ul>

# Caring for your truMedic® truShiatsu™ PRO Foot Massager

---

- This device has an operating time of 15 minutes and will automatically shut down after each session. The time remaining in the massage is displayed on the LED screen for the entirety of each session.
- Ensure the device is powered off and unplugged from the power source before cleaning.
- Do not use corrosive or abrasive cleaners. Use a dry cloth to clean the surface of the device.
- Do not store this device in hot, damp, or humid environments. Keep your unit in the box when not in use, and store it in a cool, dry place.
